Department of Agriculture Makes Surveys of Short Grass Country and Tells What Crops to Plant.

Washington, Nov. 11.—Extensive soil surveys of the "semiarid" region of the middle west for the purpose of determining what crops can be grown best in certain localities, have been completed by the reconnaissance soil survey party recently appointed by the secretary of Agriculture and an informal report of the work has been made to the secretary. The western part of the Dakotas, Nebraska and Kansas and most of the territory between them and Texas was included in the survey.

"Showing, as it does, the condition of the soils, what they are best adapted for and how they can be improved by up to date farming methods," said Secretary Wilson today, "the report should be of great value to the country."

"The most important work before the scientific agriculturist is the working out of the best system of farm management for the semi-arid regions. The plains states have profited greatly by scientific agriculture. In western Nebraska small farms under intensive cultivation have not proved the most profitable and it seems probable that the farmers there will turn gradually to a system of combined farming and stock raising."

\$3.50 RECIPE FREE, FOR WEAK MEN.

Send Name and Address Today—You Can Have It Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, falling memory and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope to any man who will write for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest-acting combination for the cure of debility, manhood and vigor failure ever put together. I think I owe it to my fellow man to send them a copy in confidence so that any man anywhere who is weak and discouraged with repeated failures may stop dragging himself with harmful patent medicines, secure what I believe is the quickest-acting restorative, upbuilding, HPOT-TOUCHING remedy ever devised, and secure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 4752 Lack Building, Detroit, Mich. and I will send you a copy of this splendid recipe in a plain ordinary envelope free of charge. A great many doctors would charge \$3.00 to \$5.00 for merely writing out a prescription like this—but I send it entirely free.

Premier Says That There Are Too Many Orientals and India Natives in Great Northern Dominion.

Ottawa, Ont., Nov. 11.—"A white British Columbia is what I have come to Canada's capital to urge," said Premier Richard McBride of British Columbia, who is here today for visits to the governor general, the Duke of Connaught, and to Premier Borden. "We want the Pacific coast of Canada to become a white man's country and not to be flooded with Asiatics from Japan, China and India," continued the premier. "Already we have too many people from those countries, and under our present laws we are getting more steadily. The movement should be stopped now in such a manner that it cannot be again commenced."

At present Canada has a law requiring Chinese to pay an admission tax of \$500. Mr. McBride wants this increased to \$1,000. There is no law to shut out Japanese and Hindus, but for many years immigration from those countries has been held in check by a "gentlemen's agreement." Premier McBride seeks positive restrictive legislation by Canada.

Today Leonard-Lindemann Co. enjoys the distinction of being the oldest music house in New Mexico.
